

Successes for Handelsbanken Wealth & Asset Management (HWAM) at the 2021 WealthBriefing Awards

We are delighted to announce that Handelsbanken Wealth & Asset Management has won the 'UK High Net Worth Team' award at the 9th Annual WealthBriefing European Awards 2021. Additionally, the Tax team and the Communications team have been commended in their respective categories. Congratulations to all involved.

Winning awards can be particularly helpful in challenging times as it's another way to provide customers reassurance in the merits and sustainability of our business and operating model. The awards were independently judged on the basis of entrants' submissions. Our submission focused on the customer experience, so it's great to see our relationship-based approach recognised in this way.
