

# Non-UCITS retail scheme Key Investor Information

**Handelsbanken**

Authorised Corporate Director

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

**Handelsbanken Adventurous Fund (the "Fund")**

**Class: D Accumulation Shares**

**A sub-fund of Handelsbanken Multi Asset Funds**

**ISIN: GB00BFMW0R53**

**The Fund is managed by Handelsbanken ACD Limited**

**Currency: GBP**

## Objectives and investment policy

### Objective

To deliver a total return (the money made or lost on an investment from the combination of income and capital growth) in excess of the MSCI All Country World Index (£) - Net total return over any period of five years, after all costs and charges have been taken. There is no guarantee that the objective will be met or that a positive return will be delivered over any time period and you may get back less than you invest.

### Investment Policy

To invest directly and indirectly on a global basis at least 80% in equities (which are shares in companies) across a variety of different geographic areas and industry sectors. The Fund may invest in equities and equity related securities (investments whose value is linked to the performance of shares in a company) directly and by buying other funds. For the purposes of liquidity management, the Fund may also invest in money market instruments (which are short term loans that pay interest), deposits and cash. The Portfolio Manager uses an investment approach that looks at the big picture first (for example the economy) to determine the mix of geographic areas, countries and industry sectors to invest in to achieve the Fund's objective.

### Other Features

The Fund is actively managed. The Portfolio Manager uses its expertise to research and select investments aimed at achieving the Fund's investment objective. The Fund may invest in other funds (including those managed by the Manager, the Portfolio Manager and their associates). The Fund is part of a range of five funds that are managed according to different target return benchmarks. Funds with a higher target return benchmark will have a larger allocation to higher risk investments such as equities. This Fund has the highest target return benchmark within this range and the highest expected risk. The Fund can invest in different geographical areas and industry sectors without limitation. Derivatives (investments whose value is linked to another investment, or to the performance of a stock exchange or to some other variable factor, such as interest rates) may be used for investment purposes and to manage the risk profile of the Fund.

### Benchmark

The MSCI All Country World Index (£) - Net total return has been selected as the Fund's target return benchmark as it is a global equity market index that has a broad exposure to different countries, geographic areas and industry sectors, which is in line with the Fund's investment policy. The Fund is not constrained by the target benchmark and will take positions in individual stocks, industry sectors, countries and geographic areas that differ significantly from the MSCI All Country World Index (£) - Net total return, with the aim of achieving a return (the money made or lost on an investment) in excess of the target benchmark. Please refer to the Fund's investment objective for detail regarding how achievement of the target return benchmark is measured, and over what time period.

### Recommendation

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Dealing

You can buy and sell shares in the fund on each business day.

### Income

Income from the Class is added to the value of your investment.

## Risk and reward profile

### The Risk and Reward Indicator

The calculation of the risk and reward indicator is based on 5 years of historical (actual or simulated) information so may not be a reliable indication of the future risk profile of the Fund. The risk and rewards indicator of the Fund is not guaranteed and may change over time.

The risk and reward profile is classified by the level of historical fluctuation (i.e. volatility) of the Net Asset Values of the class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

A category 1 fund is not a risk-free investment – the risk of losing your money is small, but the chances of making gains is also limited.

### Other Risks

The risk category does not take into account the following material risks:

**Currency Risk:** As the Fund can be exposed to different currencies, changes in exchange rates may decrease the value of your investment.

**Derivative Risk:** A derivative may not perform as expected and may create losses greater than its cost.

**Emerging Markets Risk:** The Fund may invest in emerging markets, which are markets in countries that are developing. Emerging markets may have more political and economic risks than developed markets, which may result in large and frequent price movements that may cause a loss to the fund.

**Counterparty Risk:** The failure of a counterparty providing services to the Fund may expose the fund to financial loss.

For a more detailed explanation of risks, please refer to the Prospectus.

## Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry Charge	0.00%
Exit Charge	0.00%

This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).

### Charges taken from the Fund over the year

Ongoing Charges	0.85%
-----------------	-------

### Charges taken from the Fund under certain specific conditions

Performance Fee	None
-----------------	------

The **entry** and **exit** charges shown are maximum figures. In some cases you may pay less – you can find this out from your financial advisor.

The Ongoing charges figure is based on expenses as at 31 December 2023 and this figure may vary.

It excludes:

- performance fees,
- portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective undertaking,
- the cost of investing in any listed "closed ended" funds e.g., investment trusts (as such costs are included in the share price of the closed-ended fund)

For more information about charges, please see the relevant sections of the Fund's Prospectus.

## Past performance

This chart shows how much the Fund increased or decreased in value as a percentage in each year.

Performance has been calculated in GBP and takes account of ongoing charges.

The Fund launched 08 July 2019 and the Class was launched on 08 July 2019. The Fund's name was changed from LF Heartwood Adventurous Fund to LF Handelsbanken Adventurous Fund in November 2020; and to Handelsbanken Adventurous Fund in November 2021.

Past performance is not a guide to future performance; the value of your investment and any income from it may go down as well as up.
